

Customer Location

Location

The map displays customer locations across the globe. Bubbles are concentrated in North America, Europe, and Oceania. Bubble size and color (ranging from dark purple to dark blue) represent sales volume. A legend on the right shows two scales: a color scale for sales from 3.32M to 47.69M, and a size scale for sales from 3.32M to 47.69M. The map includes labels for continents (NORTH AMERICA, SOUTH AMERICA, AFRICA, OCEANIA, EUROPE) and oceans (North Pacific Ocean, North Atlantic Ocean, South Pacific Ocean, South Atlantic Ocean, Southern Ocean). A 2000 km scale bar is located at the bottom left. The copyright notice '© OpenStreetMap contributors' is at the bottom right.
